

Aegean Food Sourcing from İzmir

Clear sourcing communication for Turkish dried figs, olive oil and selected Aegean food products.

Current focus

Turkish dried figs are the main focus. Metropolis Harvest supports the early sourcing stage by clarifying buyer requirements, checking producer readiness and keeping first-stage communication organized.

What we support

- Buyer requirement collection: product form, quantity, packaging, destination and requested documents.
- Producer availability and readiness checks before detailed quotation discussions.
- Initial buyer communication in English, Turkish, French, Spanish and Arabic.
- Sample, product information and document follow-up when suitable.

Product areas

- Turkish dried figs — whole, Layer/Lerida, Pulled, paste and pieces/dices.
- Fig-based products — fig paste, fig jam and selected related formats.
- Olive oil and local products — selected Aegean products, subject to producer verification.

Documents and analysis to confirm

- Aflatoxin analysis availability
- Pesticide residue analysis availability
- Moisture information and product specification sheet
- Organic certificate, if requested
- Certificate of origin, packing and batch/lot information

Important note

Metropolis Harvest is not presented as the manufacturer. Product availability, final quotations, certificates, analysis reports and export operations are confirmed with the producer or exporting company.
