

# Metropolis Harvest

Aegean Agricultural Products - Export Sales & Sourcing from Izmir, Turkiye

Metropolis Harvest connects selected local producers from the Izmir and Aegean region with international buyers through clear communication, careful product presentation and sourcing coordination.

## Main Focus Areas

| Product area                | What can be evaluated                                                                                              |
|-----------------------------|--------------------------------------------------------------------------------------------------------------------|
| Turkish dried figs          | Natural dried figs, Lerida/layer figs, pulled figs, bulk and retail packaging, depending on producer availability. |
| Fig-based products          | Fig paste, fig jam and selected fig-based products for gourmet, retail, food service and ingredient channels.      |
| Olive oil & local products  | Olive oil, local preserves, pomegranate-based products and seasonal Aegean agricultural products.                  |
| Selected export-ready goods | Packaging and selected local goods can be evaluated when producer information is clear and export-ready.           |

## Buyer Inquiry Checklist

- Product type and required quality/grade
- Quantity and preferred packaging
- Destination country and target delivery period
- Required documents or certificates
- Target price range, if available

## How We Work

- Producer check - We speak with selected local producers and suppliers from the Izmir and Aegean region.
- Product information - We collect available product specifications, packaging options, photos and documents.
- Buyer communication - Initial communication is coordinated in English, French and Turkish.
- Quotation coordination - Quotations and export operations are confirmed directly by the producer or exporting company.
- Follow-up - We keep the initial sourcing discussion clear, documented and easy to continue.

## Important Note

Metropolis Harvest does not claim to be the manufacturer. Product availability, certificates, documents and final quotations are confirmed only after producer or exporter verification.
